<p style="text-align: center;"><b>Outcome 1 – Children have a strong sense of identity</b></p> <p>September seems to be the month of birthdays; the children have been talking about the different things we have at birthdays like cakes and candles and streamers. We have added these things to our kitchen area to help further develop their vocabulary and their skills in dramatic play.</p>		<p style="text-align: center;"><b>Outcome 2 – Children are connected with and contribute to their world</b></p> <p>The children have shown a real interest in flags and the countries they belong to and where they are on the globe. We have been exploring the different countries, the homes they live in and discussed some of the special features of these countries.</p>		<p style="text-align: center;"><b>Outcome 3 – Children have a strong sense of wellbeing</b></p> <p>We have been practicing movement in different ways, from forward rolls to yoga and dance and seeing what shapes we can make our bodies, as well as having the children make up their own.</p>	
<p style="text-align: center;"><b>Outcome 4 – Children are confident and involved learners</b></p> <p>We have been working on playing games in a group, taking turns, and working on a shared goal. The games we have been playing are snakes and ladders, bingo and memory. These all help to develop important skills such as persistence, being a gracious winner and accepting defeats.</p>			<p style="text-align: center;"><b>Outcome 5 – Children are effective communicators</b></p> <p>We have been talking about and making patterns. We discussed that we can use anything to make a pattern but it needs to repeat. The children were very good at telling us what goes next in the pattern and are starting to develop and describe more complex patterns.</p>
